

Please do not park behind the school to walk around and pick up your child.

- For the safety of our students, we ask that you follow this diagram when picking up your child each afternoon. If you are in the designated loading area, please turn off your engine and proceed to the front area to pick up your child. As quickly as you can, return to your car and load in your child. Once teachers observe that everyone is safely loaded, the siren will sound and you may proceed forward.
- If you are in the loading zone, please know this is not the appropriate time to go into the school to attend to any business with the office or a teacher. Please park, come into the building and then leave after dismissal is completed. One unattended car prevents the departure of many.
- Thank you for helping our students be safe.
