LOCKERS

➤ Each student will be issued an individual locker so he/she will have a secure place to store school supplies and personal items needed at school. Do not store valuables or money in your locker and do not give out your locker combination. If your locker is not working properly or you feel someone has tampered with it, inform the front office. The following rules apply to lockers:

➤ Do not deface or damage any part of your locker or any other (only put items inside the door that can easily be removed).

➤ **Do not write, use tape or put stickers on lockers.**

➤ Do not switch lockers without administrative approval as you are held responsible for all contents of your locker.

➤ Sharing lockers is not permitted.

➤ Do not leave food, soda cans, etc. in lockers for extended periods of time.

➤ The administration retains the right to periodically inspect lockers for cleanliness.

➤ Students are required to clean their locker at the year’s end.

➤ Students are reminded that lockers are the property of the school. Student lockers may be searched if there exists a "reasonable suspicion" that the locker contains any item that is either illegal or inappropriate.

➤ Students should not leave valuables within a PE locker or locker room without a secured lock to secure the valuables.

➤ Valuables left unsecured in a locker or locker room are not the responsibility of the school.

➤ Failure to comply with locker policy may result in the loss of locker use and 1-5 days ISS.
