

# BMS COUNSELING DEPARTMENT

## Student Supports:

Missing work support, academic and social emotional check ins with students, homework club, organization office hours, new student check ins, conflict resolution and peer mediation support, small groups, classroom lessons, Counseling THRIVE sessions, and more!

## Counseling THRIVE:

The counseling department offers *optional* THRIVE sessions every week, taught by Ms. Ryan. Some topics of past sessions include time management, organization, stress management, healthy sleep habits, and more.

## What is STARS counseling?

In 2016, the STARS Enhanced Student Assistance Program (ESAP) was created to serve the needs of students who require a higher level of support than we typically have provided through our traditional SAP. Through this enhanced program, students are able to access confidential mental health services onsite in their own school environment, during school hours.

## Social Work Supports:

School Social Worker, Allie Keener, provides support and assistance to students and families through consultation and connection to community resources outside of school. These resources can center on many types of needs, such as medical, mental health, social and emotional, holiday assistance and basic needs.

**6th Grade Counselor:** Jane Allison Crewse ([jane.crewse@wcs.edu](mailto:jane.crewse@wcs.edu))

**7th Grade Counselor:** Venessa Jeris ([venessa.jeris@wcs.edu](mailto:venessa.jeris@wcs.edu))
