Dismissal - Procedures for car rider line during dismissal

1. Car riders will be dismissed to the gym.

2. Each family will be given a car rider decal with your child’s name on it. This decal will be collected daily by our dismissal staff. Cars without this decal will be asked to park and go to the office for identification. We do this for the safety of all children and thank you for your cooperation.

3. Students will wait quietly in the gym until notified by a staff member to load into their car in the car rider lane.

4. Parents are to form two lanes of traffic to pick up students.

5. Loading will be limited by zones.

6. Once stopped, please turn your engine off and stay with your vehicle. A staff member will ensure that the name on your decal is called so that students can be called for loading.

7. Once all students are loaded and the staff has cleared all areas, vehicles will be released.

8. The second wave of cars will pull forward for loading and the process repeats itself.

The safety of the children is our biggest concern. Thank you in advance for complying with these procedures and the directions of the staff on duty. Please refrain from waving your child to you while cars are moving or from the parking lot. Car riders should be picked up from the car rider lanes only. Your patience and consideration for the safety of the students is appreciated.
