

# WCS Threat Assessment Flowchart

A threat is defined as any expression of intent to harm someone. Threats can be spoken, written, emailed, or expressed in some other way. All employees are mandatory reporters.

The results of this screening do not predict specific episodes of violence, nor are they a foolproof method of assessing an individual's potential to harm others. The purpose of this screening is to identify circumstances that may increase the risk for potential violence and to assist school staff in developing a safety and supervision plan.
