NEW SCHOOLS – SHARING OF RESOURCES

1 Whenever a new school is built, the following will occur with review and final approval of the  
2 Superintendent of Schools.  
3

4 (1) School activity funds will be split between the pre-existing school and the new  
5 school, based on the percentage of students zoned to the new school as of the end  
6 of the last month the students are attending together.  
7

8  
9 (2) Consideration for dividing certain equipment, supplies, and library books between  
10 the two schools will be given as long as the pre-existing school is not left deficient for  
11 the remaining students.  
12

13 This kind of sharing of funds, supplies, equipment, and library books will also take place whenever  
14 a rezoning of a substantial number of students occurs.
