Family Access Participation Agreement 2019-2020

To the Parent/Guardian:

By completing an application for the Skyward **Family Access** account, you allow Williamson County Schools (WCS) to make your child's school-related information available to you on a website that is secure and accessible only with an assigned login and password. Only you—the login and password holder for the account—will be able to see your child's information. Among the information contained on the site are your child's academic schedule, class grades, registration forms and information, teacher communications, transcripts and attendance records.

WCS will not make your username/password publicly available. Any grades posted to the site are only accessible by someone who knows your username and password. You should share your username/password only with those you consider to have a legitimate interest in your child's grades. You are able to change your username and reset your password on the main page of the website. If you would like to change your username or password, please contact your child's school **Family Access** principal.

Please remember the grades you see in **Family Access** might not be inclusive of all completed assignments or tests at that point in time. Teachers update your child's grades in the Skyward system as assignments are graded. As such, please first contact your child's teacher(s) if you have questions about particular assignments or grades.

Be advised that WCS may disclose information related to or housed on the **Family Access** site in the event such information is required by a court subpoena or order, a decision or directive from the Attorney General's office or any other reason required by law. This is true for any educational record.

By accepting this agreement, you indicate you understand and agree that WCS is not responsible for Internet access to your child's grade reports by persons not having your authorization or consent. By checking the "Agree" box below, you waive any claims or causes of action you may have against WCS because of such unauthorized access.

Acceptance of this agreement authorizes each of the listed child's parents/guardians to receive a **Family Access** account. Note that a **Family Access** account is only available to biological parents, adoptive parents, or another person declared the child's guardian by a court of law or other legal process. Absent written permission from one of the above persons, a **Family Access** account is not available to stepparents or other relatives or household members.
