SENIOR PARENTS
It is time to start looking for your favorite baby picture and current picture of your senior for our annual RHS Senior Wall of Fame! This does not need to be a formal portrait. Usually the baby pictures are between birth and 3 years of age, but they can be any photo that captures the spirit of your senior as a young child. Likewise, the current picture can be a formal senior portrait or any current photo that depicts your senior now. The photos should include ONLY the senior student, exclusive of family members, friends, etc.
Send in a 5×7 copy of both pictures. They can either be color photos or color photocopies. Copies will not be returned! Please note, we cannot enlarge or reduce photos to the requested 5×7 size, so please plan to make changes prior to submission. Photos must be in the correct format to be included on the wall. Write you student’s name on the back of EACH photo and place them inside an envelope. Write the name of student and “Senior Wall of Fame” on the front of the envelope. Drop the envelope off in the bin in the front office marked “Class of 2019 Senior Wall of Fame.” If you have any questions, please email Shelley Dahms at shelley.dahms@gmail.com. Photos are due by March 15. COPIES ONLY! PHOTOS WILL NOT BE RETURNED!

Welcome Back!

WCS team members are looking forward to partnering with you for a great 2018-19 school year! You'll notice an increased emphasis on student attendance in accordance with new state guidelines, so please reinforce from home the importance of your student being present and ready to learn each day. Encouraging regular school attendance is one of the most powerful ways you can prepare your child for success—both in school and in life. When you make school attendance a priority, you help your child get better grades, develop healthy life habits, avoid dangerous behaviors and have a better chance of graduating from high school.

New Progressive Truancy Intervention Plan
“Check & Connect”

All students must follow the new state law, which requires school personnel to intervene with services for students who accrue 5 or more unexcused absences during the school year. A student’s first eight absences can be excused with a note from a parent, but a doctor’s note must be submitted after eight absences.

Tier One (5+ Unexcused Absences)
- Schools will check attendance and connect students and families with school team members to create an attendance contract and monitor progress.

Tier Two (Continued Accumulation of Unexcused Absences)
- A school-based Truancy Team member will check student needs via an individualized assessment and will connect families with the district Truancy Interventionist, who will determine appropriate next steps and coordinate wraparound services to support attendance.

Tier Three (Continued Accumulation of Unexcused Absences/Non-compliance with Tier 2 Mandates)
- A school-based Truancy Team will check student progress and determine appropriate next steps, which could include filing a petition with juvenile court if previous connections have failed.

Every Minute Matters

- Research shows that POOR ATTENDANCE is directly linked to REDUCED ACADEMIC OUTCOMES for students.

- All types of absences – excused, unexcused and suspensions – mean time away from learning.

- Studies show that even just two to three nonconsecutive absences per month can lead to academic failure if they continue throughout the year.

If you would like additional information or support regarding any attendance matter, please contact Angie Prosser, WCS Truancy Interventionist, by phone at 615-472-2470 Ext. 12352 or via email at angiep@wcs.edu.
CHILD FIND
Williamson County, in compliance with federal and state law, performs a countywide child find. Child find uses screening to find students in either public school or private school located in the geographic region, who may need special education services and supports. There are two types of screening. The first is a general screening of preschool age children throughout the school year. These screenings are on-going throughout the school year and serve preschool age children. The other kind of screening is only for school age children. A child can be referred for screening by school personnel, the family, and/or individuals in the county (physicians, child care providers, etc.) This should be done any time it is suspected that a child has a disability. Children can be screened for the following areas:

- Hearing
- Vision
- Communication Skills
- Social Skills
- Motor Skills
- Behavior/Adaptive Skills
- Academic and Pre-academic Readiness Skills/Development
