This is a reminder that we need an updated immunization form for your child before he/she begins 7th grade. This is a state requirement. Students are required to have a Tdap booster within the past five years and a 2nd varicella vaccine or proof of history of the chicken pox disease. These must be on the TN Department of Health Immunization Certificate that only health care providers have. They may be faxed to the school at 615-472-4941 or emailed to terryw1@wcs.edu.
