Standards: SPI 0407.10.1 Identify different forms of energy, such as heat, light, and chemical.

ISTE Standards:
Standard 1: Creativity and Innovation
Students demonstrate creative thinking, construct knowledge, and develop innovative products and processes using technology.
Standard 3: Research and Information Fluency
Students apply digital tools to gather, evaluate, and use information.

Mrs. Nugent’s fourth grade classes demonstrated their understanding of the seven different forms of energy through the use of images, text, and examples. Students researched the forms of energy using but not limited to netTrekker, Groler, and Discovery Education. Students worked collaboratively to provide feedback and support throughout the research and demonstration process. Prezi Edu was used as the platform to display their understanding. They presented the images, text, and examples in a creative way to represent the form.
